Online Safeguarding

To safeguard your child online, please visit the King Edward VI Online Safeguarding Hub, which you can add to your favourites. Here you will be able to find advice about parental online safeguarding and a variety of different apps that your child might be using.

You will also be able to download for FREE, software to help you track their online use via your own mobile device along with the installation instructions.

This is software produced by the company that we use to protect our network in the Academy. You will be able to check your child is safe online on their devices in the same way we do when they are logged onto our system in KESH.

This will allow you to see what your child is doing online and enable you to have conversations when you believe there may be a risk before it becomes serious.

Thank you for all your support in helping us to educate all of our children safely.

Kind Regards,

The KESH Safeguarding team.
